About This Game

You're the newest resident at Ye OLDE retirement community, where you'll meet a cast of sexy seniors who are all dying (not literally) to meet you. It's a lot like summer camp, but with orthopedic shoes, bridge clubs, and more jell-o. It's an adjustment as you settle in, but who knows: maybe these will turn out to be the best years of your life!

Later Daters makes the bold claim that adventure, passion, and transformation are not experiences reserved for the young. The game challenges ageism and suggests growing old is the purest human experience - one that can teach us poignant lessons about our capacity for love.

Gameplay Features:

- Customize your avatar, name, and salutation
- Select your pet companion to accompany you on your journey
- Customize your romance history
- Up to 9 dateable characters, all of which are open to you regardless of your customizations
- Make choices throughout the game to explore different relationships and adventures

Season 1

[h3]Ep 1 - Welcome to Ye OLDE New Home[/h3]

Moving into Ye OLDE retirement community is a huge change -- it's full of strangers, the walls are thin, and privacy seems impossible. Even if you want to meet people, getting out there is daunting. But when your faithful pet escapes, you have no choice!

[h3]Ep 2 - The Social Club Shuffle[/h3]

On your second day at Ye OLDE, it's time to join a social club! If clubs aren't your thing and you refuse to join, you'll discover how hard it is to get alone time at Ye OLDE. And if social clubs do interest you, you'll have a chance to develop some special connections.

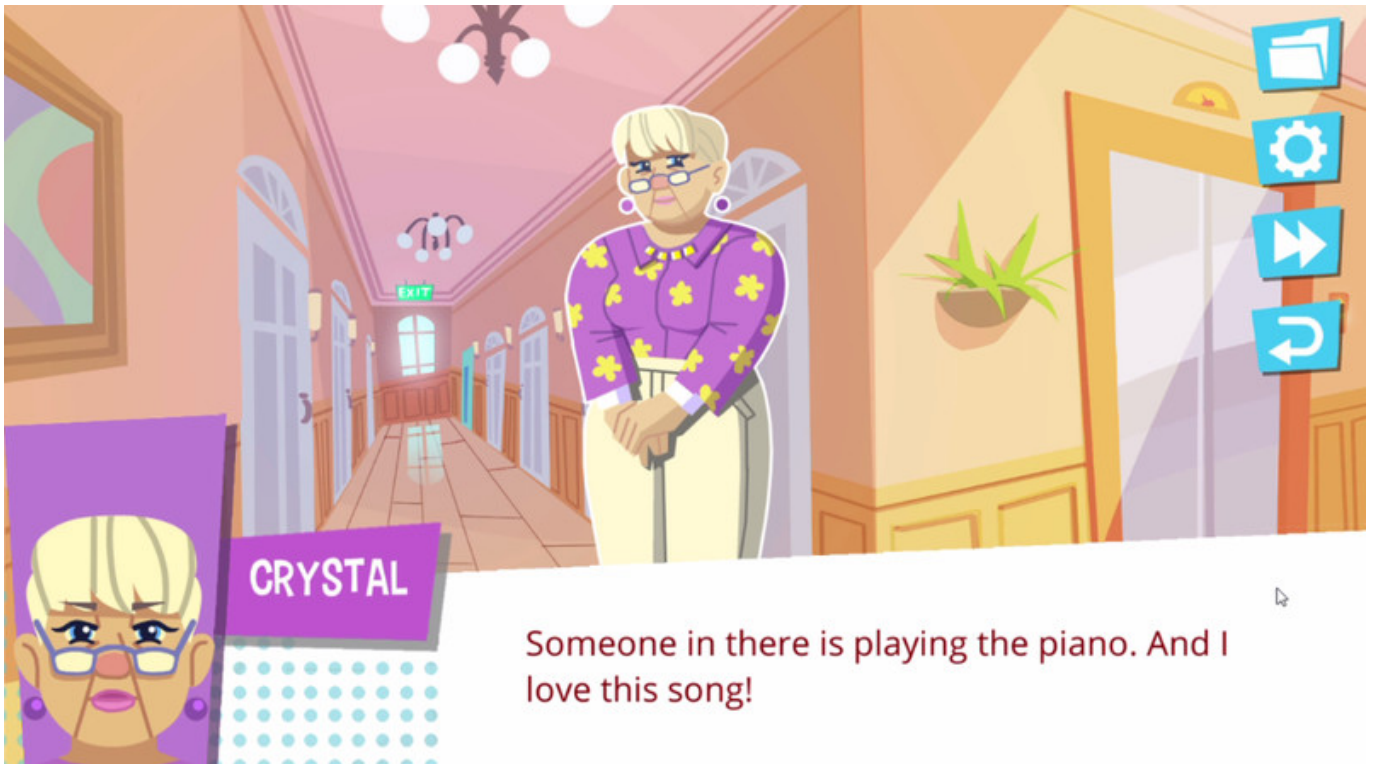

[h3]Ep 3 - Movie Night![/h3]

Tonight's film is a sci-fi classic starring Ye OLDE's resident rockstar, Jax Argo! But who you're going to the movie with turns out to be a bigger issue than you thought. The rules of dating are different in your golden years. Are you ready for the dating scene at Ye OLDE?
